People are working night and day for improving quality and efficiency of there production and selling for getting more and more financial gains. Now mix a flavor of vastu in your business planning and be ready to see amazing result. Vastu is a result oriented and experience based science. It is a science of event manifestation. It changes one's cosmic path leading to success and stability. It deal with natural forces and changes ones relationship with them. It builds a beautiful bridge between inner spaces and outer spaces. It defines one's path effortlessly and subtracts natural hindrance and blockage. It creates a positive relationship between microcosm i.e. individual & macrocosm i.e. outer world or universe.

Every material in the universe radiates some energy at its own specific frequency. Not only solid, liquid, gases materials as whole but every molecule, atom, cell etc. radiate at different energy levels, some positive and some negative. Most important point

of vastu is energy storage. If the stored energy in any place be it home, temple, office, factory etc is positive; people living in that place will enjoy good health, wealth, prosperity and happiness. Similarly if the stored energy is negative people will suffer from chronic disease, financial problem, unhappiness etc.

Shops and Offices are run with a fundamental goal of earning profits and increasing financial status. But for maintaining this financial growth one should follow some basic principal of vastu at each and every stage of his business. It not only gives you financial stability but also give you power to control adverse situations with a great presence of mind. It also prevents your subordinates to go against your interests. Some of very beneficial vastu tips are as follows.

Office or shop should be North or East facing.

Slope should be towards North East.

Tall and heavy construction in South West is good.

Toilets in North-West considered best.

Mandir should be in North East. In other words you should face North East while praying.

Square or Rectangular shape plot are suited best for overall growth.

North East should be cleanest part of your premises and it should be free from any load.

Taps, Water Fountain, Aquarium, water jug etc. should be placed in North East of your premises.

Owner should sit or owner's cabin should be in South West direction.

North is the direction of lord kubaer and you should face toward it while sitting in your office or shop.

Cash box or safe should be open towards North. It should not be placed directly on the floor.

Placed two idol of lord ganesha above entrance of premises one facing outside & other facing inside with their back touching each other.

Put big door & windows in NE. corner of your premises & try to keep them opened as much as possible. Big windows in South-West are not considered auspicious as it

increase negative energy flow inside the premises. Cover them with thick curtains or blinds.

Synthetic carpets or PVC flooring should not be used in your premises.

You should not sit under any beam or stairs. It not only gives you mental tension but also caused illness in long run.

Put Shri-yantra in your pooja. It is best way to worshiping lakshmi ji. It should be properly charged by a specialist for best results.

Pantry is best located in South-East zone.

Don't ever made staircase in North-East zone.

Shoes etc should not be kept in North-East. Statues of lord Lakshmi ji and Ganesh ji should be place in mandir and it should preffebly made of silver.

Ganesh ji or Lakshmi ji are considered best in sitting position.

Always keep Ganga jal in your mandir in a copper vessel. It is very good for financial growth.

Check activities in South-West if you have facing problem with your employees and check activities in

South-East if you are facing litigation or problem in payment collection.

Sales staff should face North while sealing and accounting people should face East while working (it is very important principal and can change status of your business if follows)

Put packing material and waste material in SW zone.

Products which are not selling can be sold by placing them in NW.

Vastu is a vast science and it is very hard to touch each and every part of it in such as short article. In a vastu we always trust on growth of all sphere of life whether it is financial, physical or emotional field. Financial growth is incomplete without good health. If you are not happy with your marital life you can't enjoy prosperity you have. So you can say overall growth is the fundamental motive of vastu. We always tries to balance Panch-Tatwa in a premises. They should not only presence in there own zone but should also be placed in harmony with each other.
